Election/Restrictions

Claims 1, 6, 9-11 and 16 are allowable. The restriction requirement among different antigen species, as set forth in the Office action mailed on 23 December 2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3-5, 7 and 8, directed to other nonelected antigen species, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim. However, claims 12-15, directed to a vaccine adjuvant composition, are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

Art Unit: 1648

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Gwen Acker Wood on 5 January 2010.

The application has been amended as follows:

Please cancel claims 12-15.

Claims 1, 3-11 and 16 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

(1) The rejection of claims 1, 6, 9-11 and 16 under 35 U.S.C. 103(a) as being unpatentable over Meidenbauer *et al.* (2000) in view of Baxevanis *et al.* (1997) and Quinn *et al.* (1998) is withdrawn in view of Applicant's amendment and arguments. The prior art discloses the administration of lymphocyte conditioned media (LCM) obtained from CD3-stimulated normal donor PBMCs (Baxevanis *et al.*, 1997) to cancer patients resulting in the induction of tumor-specific cytotoxic T lymphocyte (CTL) responses. The prior art (Quinn *et al.*, 1998) also disclose the costimulation of human T-cells with anti-CD3 and anti-CD28 Mabs. Cross-linking the CD3 and CD28 receptors leads to cytokine production and lymphocyte proliferation. However, neither of these teachings suggest that administering LCM obtained from normal donors stimulated with anti-CD3 and anti-CD28 antibodies in conjunction with an antigen will lead to an antigen-specific immune response against said antigen. Moreover, the prior art of record does not teach or

Art Unit: 1648

suggest that anti-CD3 and anti-CD28 costimulation leads to the maturation and amplification of antigen-presenting dendritic cells. Accordingly, the claims are unobvious in view of the prior art. The adjuvant-like activities of LCM obtained from anti-CD3 and anti-CD28 costimulation were neither appreciated nor understood.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LOUISE HUMPHREY whose telephone number is (571)272-5543. The examiner can normally be reached on Mon-Thu, 9:00 am - 5:30 pm.
